Education

University of Oxford 2023 – 2027
DPhil in Economics. Advisor: Maximilian Kasy
Visiting Student to Davide Viviano, Harvard University
Visiting Student to Gabor Lugosi, Universitat Pompeu Fabra

University of Oxford 2021 – 2023
MPhil in Economics. Distinction

Universidad Carlos III de Madrid 2016 – 2021
BSc in Economics and BA in International Studies. Extraordinary Distinction Award
Exchange Student at University of California, Berkeley and Bocconi University

Fields

Primary: Econometrics, Experimental Design
Secondary: Machine Learning, Microeconomic Theory, Online Learning

Job Market Paper

Adaptive Design of Clustered Surveys and Experiments. The optimal design of cluster-randomized experiments depends on the ex-ante unknown correlation of outcomes within clusters. I propose two adaptive algorithms that implement the optimal design without prior knowledge of this correlation. Moreover, I develop a general theory of inference invariance that shows that adaptive data collection depending on variances does not compromise inference when errors are symmetric

Working Papers and Work in Progress

Signaled Bandits. Introduces the signaled bandit game, a generalization of bandit and prediction-with-experts problems through the notion of signal informativeness

Adaptive Wage Setting: A Prior-Free Theory of Adverse Selection and Monopsony Markets. Demonstrates optimal-rate convergence to equilibrium strategies in monopsony markets with unknown productivity and reservation wage of workers (MPhil thesis – George Webb Medley Prize, *proxime accessit*)

Sequential Bias Identification in Observational Studies. Presents a framework for adaptive experimentation when the analyst also has access to observational estimates with unknown biases

Joint and Independent Sampling with Time-Correlated Outcomes. Characterizes best-group identification strategies when arms are time-correlated and the analyst can sample several arms at a premium

Escaping Adverse Selection through Learning (with Hubert Wu) Shows that, in an Akerlof-type market, agents who learn through prices can escape market unraveling

Fellowships, Scholarships and Awards

Fundación Ramón Areces Scholarship (full funding) 2026 –
Department Award for Excellence in Graduate Teaching, Oxford 2025
Oxford Economics Department Bursary (full funding) 2025 – 2026
Oxford–Chellgren Scholarship (full funding), University College, Oxford 2023 – 2025
Bank of Spain Scholarship (full funding) 2021 – 2023
George Webb Medley Prize for Best MPhil Thesis, *proxime accessit*, Oxford 2023
Extraordinary Distinction Award, top student in cohort, UC3M 2021
Consejo Social Extraordinary Award, top-10 student across all Social Science programs, UC3M 2020

Teaching Experience

Core Econometrics (MPhil), University of Oxford, Teaching Assistant 2024 – 2026
Department Award for Excellence in Graduate Teaching
Statistics (Executive MBA), Chicago Booth, TA to Prof. Christian Hansen 2025 – 2026
Machine Learning and Treatment Effects (Summer School), University of Oxford, TA to Prof. Max Kasy and Prof. Francis DiTraglia 2023
Mathematics for Economics (Undergraduate), University of Oxford, Tutor 2022

Research and Professional Experience

University of Oxford and Universitat Pompeu Fabra, Research Assistant to Profs. Miguel A. Ballester and José Apesteguia 2024 – 2025
Amazon, Economics PhD Intern, Causal Inference (full-time return offer) 2024
Bank of Spain, Research Assistant to Dr. Sandra García Uribe 2023
University of Oxford, Research Assistant to Prof. Max Kasy 2022 – 2023
Compass Lexecon, Research Analyst 2020 – 2021

Presentations

EWMES (Warsaw), Econometrics Seminar (Oxford), CeMMAP (UCL), AFE (Chicago), UK Grad Econometrics Network (Warwick), Grad Workshop in Econometrics (Harvard), Dev and Econometrics Workshop (Harvard) 2026
Econometrics Seminar (Oxford), Student Theory Workshop (Oxford), CIREQ Conference on Big Data and Artificial Intelligence (McGill), Research Jamboree (Oxford) 2023 – 2025

Professional Activities

Referee: ACM Conference on Fairness, Accountability, and Transparency (FAccT)
Conference Organizer: Economic Analyses of Science (with Max Kasy), Social Foundations for Statistics and Machine Learning (with Max Kasy), and Novel Ideas, MPhil Seminar Series

Skills and Languages

Programming: R, Python, Stata, SQL, Mathematica, AWS (Athena, SageMaker)
Languages: Spanish (native), English (proficient), Italian, Catalan, Chinese (fluent)
Citizenship: Spain
